

Internet Accelerator

Get DSL Speeds from a Dial-up Line with the XL Internet Accelerator™

If you're one of the millions of frustrated consumers who is tired of slow browsing speeds from your dial-up line, XL Internet Accelerator™ is the product you've been waiting for...

XL Internet Accelerator™ is a new and innovative, service that dramatically increases web browsing speeds over traditional dial-up telephone lines, making these slow lines perform as fast as DSL lines. With XL Internet Accelerator™, there'll be no more endless waiting for web pages to display. XL Internet Accelerator™ also speeds up other http applications including web-based email attachments such as Word, Excel and PowerPoint files. In addition to speeding up dial lines, XL Internet Accelerator™ also improves the speed of broadband connections like cable, DSL and wireless. Although not currently supported, future versions of XL Internet Accelerator™ will even increase speeds of games and music downloads.

Speed Is Just a Click Away -- After installing XL Internet Accelerator™ you'll notice an immediate speed increase, but the best is yet to come. The more you use XL Internet Accelerator™, the faster your Internet experience becomes. Over time, XL Internet Accelerator™ feature learns your browsing habits and creates a custom profile just for you. This profile allows XL Internet Accelerator™ to anticipate where you want to go and what you want to do there even before you do. This lets the XL Internet Accelerator™ deliver your frequently-visited sites lightning fast. XL Internet Accelerator™ Performance Data -- XL Internet Accelerator™ will turn your slow, frustrating Internet experience into an exhilarating ride. In XL Internet Accelerator™ comparison testing of the top ranking web pages, XL Internet Accelerator™ average page download speed using a standard phone line connected at 56K was 4.41 seconds. Using a 325kbs DSL connection without XL Internet Accelerator™, the average page download speed was 4.48 seconds.

The XL Internet Accelerator your Internet connection will be up to 5x faster!

Breakthrough Optimization Techniques Produce All the Speed You Need

XL Internet Accelerator™ performance optimizations include:

- TCP/IP Protocol Optimization
- Advanced Compression
- Interleaved Intelligent Caching
- Optimizing Data Centers
- Window & Browser Optimizations
- and much more...

Parental Control -- Site Usage Reporting • lets you quickly see which web sites are being visited, by whom they are being visited and how much time is being spent there.

Site Blocking • puts you in control. XL Internet Accelerator™ provides a notepad page where you can quickly and easily type in a list of acceptable sites that can be visited by anyone or, conversely, a list of sites that no one can visit.

Content Control • provides two additional layers of protection to keep users away from undesirable or unproductive Internet sites. Two standards are supported: the Platform for Internet Content Selection (PICS) and Voluntary Content Rating (VCR). These standards identify the type of content found in web pages and denies access to web pages that do not meet the criteria set by you.

Security

Ultra-Secure Firewall • provides complete protection against hackers. With its stealth mode of operation, outsiders won't even know your computer is there, making it likely that they'll move on to an easier unprotected target.

Failsafe Downloads • automatically recovers dropped connections, allowing downloads to continue where they left off when the connection is restored.

Ad Blocking • XL Internet Accelerator™ stops annoying advertisements; which waste valuable bandwidth and can significantly slow down web browsing.

Easy to Use

XL Internet Accelerator™ user interface features a user-friendly "Console" that lets you know the status of the product with colored icons, buttons and flashing on-screen notices. A speed test button on the console allows you to test your speed with and without XL Internet Accelerator™ running so you can see the benefit of XL Internet Accelerator™ whenever you wish. XL Internet Accelerator™ Mouse Over Helps allow you to get help anywhere in the program by placing your mouse over the item. More extensive help is available by clicking on the Question Mark at the top of every screen. Extensive documentation is also available right in the product.

Get It Now!

XL Internet Accelerator™ is only available through select ISP's. If you want to speed up your internet access to up to 5x the speed of normal dialup tell your ISP you want XL today!
